environment & planning a

international journal of urban and regional research · volume 15 1983 · a pion publication

Editor A G Wilson
School of Geography, The University of Leeds, Leeds LS2 9JT, England

Coeditors
D E Boyce
Dept of Civil Engineering, University of Illinois, 208 North Romine Street, Urbana, Illinois 61801, USA

R J Johnston
Department of Geography, The University of Sheffield, Sheffield S10 2TN, England

Coeditor and book reviews editor N J Thrift
Dept of Human Geography, Research School of Pacific Studies, Australian National University, PO Box 4, Canberra, ACT 2600, Australia

Editorial advisory board
R J Bennett, Department of Geography, University of Cambridge, Cambridge, England
R Fincher, Department of Geography, McMaster University, Ontario, Canada
M M Fischer, Institute of Geography, University of Vienna, Vienna, Austria
P Gould, College of Earth and Mineral Sciences, Pennsylvania State University, USA
T Hägerstrand, Department of Geography, University of Lund, Sweden
P Haggett, Department of Geography, University of Bristol, Bristol, England
B Harris, Department of City and Regional Planning, University of Pennsylvania, USA
A M Hay, Department of Geography, University of Sheffield, Sheffield, England
S M Macgill, School of Geography, The University of Leeds, Leeds LS2 9JT, England
E J Malecki, Department of Geography, University of Florida, Gainesville, USA
D B Massey, Faculty of Social Sciences, The Open University, Milton Keynes, England
K Mera, The World Bank, Washington, DC, USA
S Openshaw, Dept of Town and Country Planning, Univ. of Newcastle, England
T O'Riordan, School of Environmental Sciences, Univ. of East Anglia, Norwich, England
Yu S Popkov, Institute for System Studies, Moscow, USSR
P H Rees, School of Geography, The University of Leeds, Leeds LS2 9JT, England
H W Richardson, Dept of Economics, State University of New York at Albany, USA
B R Roberts, Department of Sociology, University of Manchester, England
A Rogers, IIASA, Schloss Laxenburg, Austria
A J Scott, Dept of Geography, University of California–Los Angeles, Los Angeles, USA
P Williams, Urban Research Unit, Australian National University, Canberra, Australia
N Wrigley, Department of Geography, University of Bristol, Bristol, England

Contents

Volume 15, number 1

Editorials 1

A central-place model as a two-level location-allocation system 5
Hiroyuki Kohsaka

A new set of spatial-interaction models: the theory of competing destinations 15
A S Fotheringham

Distribution models for the journey to work 37
J Broughton, J C Tanner

Summary measures of interconnectedness for input-output models 55
J R Hamilton, R C Jensen

Urban spatial structure with open space 67
C H Yang, M Fujita

Why poor people do not move: job search behavior and disequilibrium amongst local labor markets 85
G L Clark, J Whiteman

Capital accumulation and chemicals production in Western Europe in the postwar period 105
R Hudson

Incomplete information, expectation, and subsequent decisionmaking 123
A de Palma

Reviews 131

Volume 15, number 2

Editorials 143

Filter-down theory: location and technology in the UK pharmaceutical industry 147
J R L Howells

Fluctuations and rigidities in local labor markets. Part 1: theory and evidence 165
G L Clark

Spatial aggregation in multiregional input-output models 187
P Blair, R E Miller

Urban fire as an unstabilized parasite: the 1976-1978 outbreak in Bushwick, Brooklyn 207
R Wallace, D Wallace

Cost-benefit analysis of wetland drainage 227
J K Bowers

Patterns of family migration: two methodological approaches 237
L J Castro, A Rogers

Public information flows in rural Australia 255
D J Walmsley

The corner-shop to supermarket transition in retailing: the beginnings of empirical evidence 265
A G Wilson, M J Oulton

Reviews 275

Volume 15, number 3

Guest editorial 289

Life-cycle stages, mobility, and metropolitan change: 1. Theoretical issues 293
M J Webber

Life-cycle stages, mobility, and metropolitan change: 2. A model of migration 307
M J Webber

Model misspecification and spatial structure in spatial-interaction models 319
M Baxter

The dynamics of spatial labor mobility in the Netherlands 329
C P A Bartels, K-L Liaw

Analysis of gross migration profiles in England and Wales: some developments in classification 343
I Bracken, J Bates

The strange case of the missing time period $n+1$ 357
C Price

Fluctuations and rigidities in local labor markets. Part 2: reinterpreting contracts 365
G L Clark

A temporal perspective on the properties of the index of dissimilarity 379
B S Morgan

A multisectoral and multiregional transport model for India—data base and calibration techniques 391
M Q Dalvi, T K Das

Understanding residential energy conservation through attitudes and beliefs 405
Marilyn A Brown, Susan M Macey

Reviews 417

Volume 15, number 4

Editorials 429

A cost-efficiency approach to the analysis of congested spatial-interaction behavior 435
T E Smith

On spatial justice 465
G H Pirie

On the uniqueness and existence of equilibrium points in an urban retail model 475
F J A Rijk, A C F Vorst

Independence, stationarity, categorical spatial data and the chi-squared test 483
B Fingleton

Rural settlement policies and local authority housing: observations from a case-study of South Hams, Devon 501
D R Phillips, A M Williams

Solution algorithms for a combined residential location and transportation model 515
M Los, S Nguyen

A causal model of attitudes toward mental health facilities 525
G B Hall, S M Taylor

Optimum control in nonlinear ecological dynamics of metropolitan areas 543
D S Dendrinos, H Mullally

A shortcut method for computing final demand multipliers for small regions: comment 551
J L Katz

Letters to the editor 555

Reviews 559

Volume 15, number 5

Guest editorials 571

Dimensions of social well-being: implications of alternative spatial frames 579
K W J McCracken

Travel probability fields and urban spatial structure: 1. Theory 593
M J Beckmann, T F Golob, Y Zahavi

The inconsistency of eclecticism
R Fincher 607

The use of the life-style concept in travel demand models
I Salomon, M Ben-Akiva 623

Takeover, closures, and the restructuring of the United Kingdom ironfoundry industry
I J Smith, M J Taylor 639

Building societies and local lending behaviour
J Doling, P Williams 663

The theory of the multinational enterprise: an application to multinational office location
J H Dunning, G Norman 675

An alternative formulation for spatial-interaction modeling
W Tobler 693

Tober's "An alternative formulation for spatial-interaction modeling": an observation
A G Wilson 705

Letter to the editor 707

Reviews 709

Volume 15, number 6

Editorials 721

Travel probability fields and urban spatial structure: 2. Empirical tests
M J Beckmann, T F Golob, Y Zahavi 727

A behavioural approach to retail blight
M Marcus 739

A multiple-attribute housing disequilibrium model of residential mobility
J L Onaka 751

Construction of an index of housing need based on data from the National Dwelling and Housing Survey
M Thomas 767

Errors in the measurement of spatial distances between discrete regions
A Rodriguez-Bachiller 781

Log-linear models with dependent spatial data
B Fingleton 801

Intraurban residential relocation choices for students: an empirical inquiry
D A Hensher, A K Taylor 815

Operational definition of area-based social indicators
M Visvalingam 831

On the duality of employment and wages in the Garin-Lowry model
P C Emmi 841

Computer Program 3: Accounts based models for multiregional population analysis (ABM)
P H Rees 847

Letter to the editor 849

Reviews 851

Volume 15, number 7

Editorials 867

Valuation of the environmental impact of wetland flood protection and drainage schemes
R K Turner, D Dent, R D Hey 871

An examination of an ecological model of neighborhood change, which employs a biased estimation technique
W A Schwab, M K Miller 889

The small-town viability question in a prairie context
D Todd 903

Forms of housing production: initial formulations 917
A Cardoso, J R Short

Neighbourhood and health effects on elderly morale 929
J R Bohland, D T Herbert

The folklore of the perceived environment in Bihar 945
G P Chapman

Spectral analysis and distributed lags in geographical studies of local unemployment: 969
1. Spectral and cross-spectral analysis
R Dunn

Watershed land-use planning under uncertainty 987
I C Goulter, H G Wenzel Jr, L D Hopkins

Letter to the editor 993

Reviews 995

Volume 15, number 8

Editorials 1011

Scale effects and the information content of frequency arrays obtained by quadrat methods 1015
R W Thomas

A regional econometric analysis of energy prices and economic activity 1027
T J Considine, T D Mount

Spectral analysis and distributed lags in geographical studies of local unemployment: 1043
2. Distributed lags
R Dunn

Destination dependence: a reevaluation of the competing-risk approach 1057
R B Davies

The distribution of urban voluntary resources: an exploratory analysis 1067
J R Wolch, R K Geiger

Analysing service equity: fire services in Sydney 1083
C Adrian

Business service offices in British provincial cities: location and control 1101
P W Daniels

Some theoretical aspects of destination choice and their relevance to production-constrained gravity models 1121
A S Fotheringham

Letters to the editor 1133

Reviews 1137

Volume 15, number 9

Editorials 1149

Papers from the Second World Regional Development and Planning Conference

Optimal development strategies in a labor-surplus economy with increasing returns: is industrialization desirable at all? 1151
T Miyao, K Nishimura

Rural and urban population changes and the stages of economic development: a unified approach 1160
T Miyao

Evaluation of regional development policy—an alternative approach 1175
N Sakashita

Long-term urban trends in developing countries: some further econometric results 1185
J-P Ancot, J H Kuiper, J H P Paelinck

Integrated policy analysis by means of interactive learning models 1195
P Nijkamp, J Spronk

The location of sewage treatment plants on a continuous space: theoretical and empirical analyses 1205
Y Kitabatake, T Miyazaki

Implementation and computational issues for combined models of location, destination, mode, and route choice 1219
D E Boyce, K S Chon, Y J Lee, K T Lin, L J LeBlanc

Other titles

A model of population change with new and return migration 1231
S Alexander

Algorithm 11: Information statistics for comparing predicted and observed trip matrices 1259
B Ayeni

Redoubling the helix: space-time and the critical social theory of Anthony Giddens (Review essay) 1267
E W Soja

Reviews 1273

Volume 15, number 10

Special issue on office location

Guest editorial 1287

Office location in transition: observations on research in Britain and North America 1293
P W Daniels, B P Holly

A model of public policy toward office relocation 1299
J M Clapp

An equilibrium model of office location and contact patterns 1311
H Tauchen, A D Witte

Towards a process model of office-location decisionmaking 1327
Lynne Edwards

Business-service activities in British provincial conurbations 1343
J N Marshall

The strength of the centre: downtown offices and metropolitan decentralization policy in Toronto 1361
W R Code

A simple theoretical model of the office-development cycle 1381
R Barras

Other titles

Factors influencing new-business formation: a case study of Northern Ireland 1395
R T Harrison, M Hart

Reviews 1413

Volume 15, number 11

Guest editorial 1429

Effects of neighborhood grant-allocations on trade-offs among urban outcomes. Part 1: Conceptual approach and example 1431
A Nesher, A P Schinnar

On Lee's Markovian entropy-maximization model for population distribution 1449
J N Kapur

Population redistribution within the rural-urban fringe: a typology of small towns and rural municipalities in the State of New Jersey 1457
T M Airola, R A Parker

Some methods for the testing and estimation of dynamic models which use panel data 1475
R B Davies, A R Pickles, R Crouchley

The spatial consequences of bureaucratic decisionmaking 1489
J R Bohland, J Gist

Experiments in regionalization of a national input-output table 1501
C H Sawyer, R E Miller

Economic and spatial aspects of von Thünen's factor intensity theory 1521
A Kellerman

The structure of motives for moving: a multidimensional model of residential mobility 1531
J M Brown

Least squares calibration of the gravity model when intrazonal flows are unknown 1545
A Sen, R K Pruthi

Letters to the editor 1551

Reviews 1553

Volume 15, number 12

Guest editorial 1567

Papers from IIASA on multiregional mathematical demography

Multiregional mathematical demography: themes and issues 1570
P H Rees

Migration and settlement: a multiregional comparative study 1585
A Rogers, F Willekens, J Ledent

A multiregional population-projection framework that incorporates both migration and residential mobility streams: application to metropolitan city-suburb redistribution 1613
W H Frey

Marriage, divorce, and remarriage from retrospective data: a multiregional approach 1633
T J Espenshade

Other titles

Effects of neighborhood grant-allocations on trade-offs among urban outcomes. Part 2: Model formulation 1653
A Nesher, A P Schinnar

On the geometry of emergency service medical provision in cities 1669
G M Hyman, L D Mayhew

The feedback component of the pork barrel: tests using the results of the 1983 General Election in Britain 1691
R J Johnston
